

COPYRIGHT AGREEMENT
Scientific Forefront Journals Publications

We / I hereby assign all copyrights, printing, publication and translation rights in the above manuscript to the
Scientific Forefront Journal Publications

Corresponding Author Name: _____

Journal Name: _____

Title of paper: _____

Author(s) Name(s): _____

Address / Affiliation: _____

Mobile No: _____

Email ID: _____

1. License

The use of the article will be governed by the Creative Commons Attribution-Share A like license as currently displayed on <http://creativecommons.org/licenses/by-sa/4.0>, except that sections 2 through 7 below will apply in this respect and prevail over all conflicting provisions of such license mode, effective upon acceptance for publication.

2. Author's Warranties

1. **Originality:** The article is original and authored by the stated individuals.
2. **Unpublished:** It has not been published previously.
3. **Legality:** The article contains no unlawful statements.
4. **Rights:** It does not infringe upon the rights of others.
5. **Copyright:** The copyright is solely held by the author, with no third-party claims.
6. **Permissions:** Necessary permissions for any quoted material from other sources have been obtained by the author(s).

This warranty assures that the article meets legal, ethical, and ownership standards before publication.

3. User Rights

Creative Commons Attribution-ShareAlike (CC BY-SA) license applied to the article, which includes:

1. **Freedom to Share:** Users can copy, distribute, and transmit the article.
2. **Freedom to Adapt:** Users can remix, transform, and build upon the material for any purpose, including commercial purposes.
3. **Credit Requirement:** Users must give appropriate credit, provide a link to the license, and indicate if changes were made.
4. **Share A like Requirement:** Any derivative work must be distributed under the same CC BY-SA license as the original article.

This license facilitates both sharing and adaptation, with conditions ensuring attribution and consistency in licensing.

4. Rights of Authors

This agreement allows authors to retain full copyright and proprietary rights over their work while granting first publication rights to Scientific Forefront Journals. Specifically, authors are free to:

1. Hold copyright and other proprietary rights, including any associated with potential patents.
2. Republish and reuse the article's content in future personal works, such as books, lectures, or research materials.
3. Reproduce the article for personal or professional use.

4. Self-archive the article, which means they can upload a copy to personal websites or institutional repositories.

This approach strikes a balance between granting the publisher initial distribution privileges and ensuring authors retain comprehensive rights for future use and dissemination of their work.

5. Co-Authorship

If the article has multiple authors, the person signing the agreement (the signatory) must ensure that they have received authorization from all co-authors to sign on their behalf. Additionally, the signatory agrees to inform their co-authors about:

1. The terms and conditions of the agreement.
2. The rights granted to Scientific Forefront Journals for first publication.
3. The retained rights that each co-author still holds, such as reuse in future works, reproduction, and self-archiving rights.

This ensures that all co-authors are fully aware of the agreement and their rights related to the publication.

6. Royalties

This clause clarifies that authors are not entitled to royalties or other financial compensation for their articles. By signing the agreement, the author:

1. Waives the right to receive royalties or fees from the Journal Owner or any sublicensees, meaning they forgo any potential payments for the article's use.
2. Acknowledges that this waiver applies to all legally permissible uses of the article by the Journal Owner or sublicensees, covering various forms of distribution, reproduction, or sublicensing.

This ensures that the Journal Owner and any sublicensees can use the article without any royalty obligations to the author.

7. Miscellaneous

1. **Conditional Publication:** The Journal Owner agrees to publish the article in the journal if it successfully completes the editorial process and if the Journal Owner or sublicensee is obligated to publish. If this obligation is fee-dependent, it only takes effect once the fee is paid.
2. **Editorial Adjustments:** The Journal Owner has the right to adjust the article's punctuation, spelling, capitalization, and style according to its standards.
3. **Open Access:** The author agrees that the article may be published in a format accessible to the public, free of charge.
4. **Sublicensing Rights:** The Journal Owner has the right to sublicense any rights granted to it under this agreement, enabling third-party use in line with the agreement's terms.
5. **Enforcement of Rights:** The Journal Owner has the ability to enforce its rights against third parties, to the extent allowed by law. This could mean, for example, taking action against unauthorized use of the article by others.
